Starting with a clear global concept, the main objective was to achieve a result that effectively accommodates all the relevant and necessary aspects of today's workspaces. At a company level, the drive for efficiency can only be guaranteed with an All-In concept, as flexibility and multi-tasking are increasingly essential for maintaining competitiveness. Networking environments that naturally foster communication, teamwork, collaboration, and competence are much more than a simple environmental upgrade—they inspire innovative solutions, far removed from the outdated working practices of the past. It is crucial to recognise the potential impact of environmental changes in the workplace, exploring new processes and solutions to establish a well-defined and effective brief for a truly human-centred space—one that supports both the individual and the organisation in equal measure.

Partiendo de un concepto global bien definido, el objetivo principal era lograr un resultado que acomodara de manera efectiva todos los aspectos relevantes y necesarios de los espacios de trabajo actuales. A nivel empresarial, la búsqueda de eficiencia solo puede garantizarse con un concepto all-in, ya que la flexibilidad y la capacidad de realizar múltiples tareas son cada vez más esenciales para mantener la competitividad. Los entornos de trabajo que fomentan naturalmente la comunicación, el trabajo en equipo, la colaboración y la competencia son mucho más que una simple mejora ambiental: inspiran soluciones innovadoras, alejadas de las prácticas obsoletas del pasado. Es fundamental reconocer el impacto potencial de los cambios en el entorno laboral, explorando nuevos procesos y soluciones para establecer un briefing bien definido y eficaz para un espacio verdaderamente centrado en el ser humano, un entorno que apoye tanto al individuo como a la organización de manera equilibrada.

En partant d'un concept global bien défini, l'objectif principal était d'obtenir un résultat qui intègre efficacement tous les aspects pertinents et nécessaires des espaces de travail actuels. À l'échelle de l'entreprise, la recherche d'efficacité ne peut être garantie qu'avec un concept all-in, car la flexibilité et la capacité à gérer plusieurs tâches sont de plus en plus essentielles pour rester compétitif. Les environnements de travail qui favorisent naturellement la communication, le travail d'équipe, la collaboration et la compétence sont bien plus qu'une simple amélioration de l'espace : ils inspirent des solutions innovantes, éloignées des pratiques obsolètes du passé. Il est essentiel de reconnaître l'impact potentiel des changements environnementaux dans le cadre du travail, en explorant de nouveaux processus et solutions afin d'établir un cahier des charges précis et efficace pour un espace véritablement centré sur l'humain - un environnement qui soutient aussi bien l'individu que l'organisation de manière équilibrée.
